be Ending Her First Voyage

Capt. Johnson said the City of Portland is completing her first round voyage and will have traveled 20,000 miles Hawsian Agricultural Co. when she returns to St. Helens, Wash., her home port, from which she started with lumber for Port Pirie, Australia, last summer. She will repeat that reute for her next voyage and may take a cargo of sugar or canned pines Koloa Sugar Co. from Honolulu to the coast if she can get one after discharging her coal at the Inter-Island coal slip.

Honolulu Oil Praised Although the City of Portland made Paia Plantation Co. the voyage from Honolulu to Port Pepeekeo Sugar Co. Pirie in 25 days, she has been 64 days coming up from Syoney. Capt. John- Waislus Agricultural Co. son says this is due to unfavorable Wailnku Sugar Co. weather and inability to get the right kind of fuel oil. 'The ship's Diesel engines run best on 24-gravity oil. "The oil we got here was fine," said the skipper, "We ran our engines on it for 22 days without stopping once. In Hawaii Con. Ry. 7 pc. A.... Sydney the best cil we could get was Hawaii Con. Ry. Com. The coal strike at Newcastle tied up the City of Portland two months. She arrived there November i from Port Pirie ready to load, but did not succeed in getting the coal aboard until December 27. Capt. Johnson said the Selama-Dindings 63 pc. Pd. labor troubles in New South Wales are so bad now that it seems to him as though the country is on the verge of Hamakus Ditch Co. 6s civil war.

DOES NATION WASH TOO MUCH IN WAR TIME, IS INQUIRED IN ENGLAND

[By Associated Press] LONDON, Eng.—The question "Is the nation wasting too much in war time?" is emblazoned over one of the booths of the national economy exhibition here, under the patronage of the Duke of Connaught. The booth aims to impress on the British housewife 79 Merchant St. that every possible saying in laundry work is a step toward winning the waa. The reason for economy in laundry vork are two-fold, according to the promoters of the exhibition. First, aundry work calls for valuable labor which might be more usefully employed. Second, washing involves the expenditure of money, fuel, time and soap-all of the highest importance in war time.

"The society woman is the worst offender in the matter of laundry bills," says the exhibition's appeal "Her maids wear unnecessary aprons and caps in the afternoon, and starchlights; entire house mosquito proof. ed frocks in the morning.
